

SMART INDIA HACKATHON 2025

- **Problem Statement ID – SIH25032**
- **Problem Statement Title- Development of a Smart Digital Platform to Promote Eco & Cultural Tourism in Jharkhand**
- **Theme- Travel and Tourism**
- **PS Category- Software**
- **Team ID-**
- **Team Name : Power rangers**

❖ Proposed Solution

Transforming Jharkhand Tourism with Technology

Multilingual Chatbot

Provides 24/7 assistance to tourists in their preferred language.

Analytics Dashboard

Secure, login-based access for tourism officials.
Tracks tourist footfall, feedback sentiment, and economic impact.

Blokchain-secured Guide Verification & Payments

Eliminating fraud through secure, verified tourism services

Hyperlocal, AI-Driven Itinerary Planner

Tailored experiences showing Jharkhand rich culture

Accurate & Interactive Hyperlocal Maps

Seamless navigation with authentic, real-time Indian road data

Blokchain-Protected Tribal Marketplace

Digital empowerment of tribal artisans with verified craft sales

Why an AI Chatbot & WhatsApp Bot?

No dedicated digital assistant exists for Jharkhand. We provide 24/7 instant information and support, eliminating tourist frustration.

Why Blockchain Technology?

To prevent fraud and enhance security. It ensures verified guides, secure transactions, and transparent dealings for all.

Why AI-Powered Itineraries?

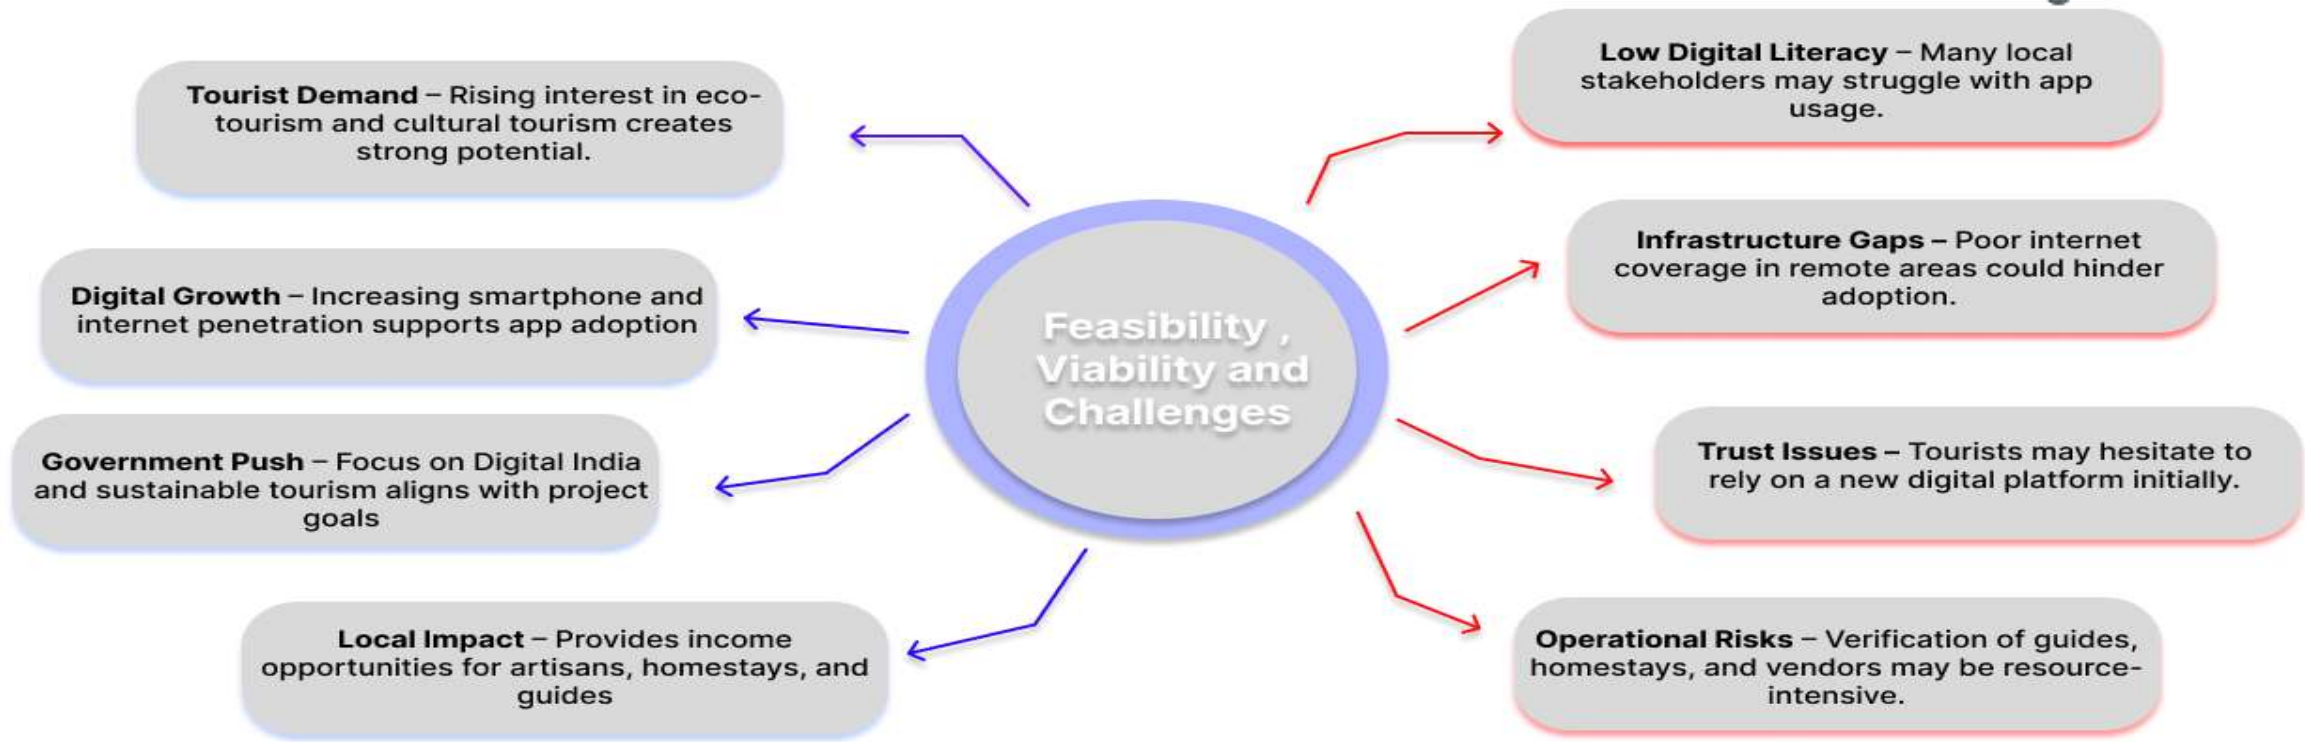

Generic plans don't fit unique travelers. Our Jharkhand-specific AI crafts truly personalized journeys based on individual preferences.

Why Interactive & Hyperlocal Maps?

For visual, easy, and accurate navigation on Indian roads (Mappls India). Explore Jharkhand with confidence.

Why a Tribal Marketplace?

Connects & protects tribal communities. Blockchain ensures authenticity, prevents fake artifacts, and guarantees fair trade.

Strategies to Overcome Challenge

Capacity Building –Training
workshops for locals on digital tools and tourism practices.

Offline Features -
Enable key app functions (maps, itineraries) in low-connectivity areas.

Partnerships –
Collaborate with state tourism boards, NGOs, and travel agencies for trust-building.

Robust Verification –
Blockchain-based secure verification for guides, vendors, and services.

Promotion & Awareness –
Digital campaigns, cultural festivals, and local ambassadors to increase visibility

Boost in Tourism Revenue

- Greater visibility attracts more domestic & international tourists.
- Organized ecosystem drives higher state income.
- Impact: +20–25% tourist footfall, +15–20% revenue.

Enhanced Tourist Experience

- AI itineraries & multilingual chatbot simplify trip planning.
- AR/VR & interactive maps make exploration engaging.
- Impact: +30% visitor satisfaction, higher repeat visits.

Trust & Safety for Tourists

- Verified guides & services build credibility.
- Real-time transport & geo-location improve safety.
- Impact: 40% fewer complaints, stronger tourist trust.

Impact

Benefits

Boosted Tourism Revenue

Higher visibility attracts more tourists, increasing state income.

Simplified Trip Planning

AI itineraries & multilingual chatbot ease travel decisions.

Immersive Exploration

AR/VR previews & interactive maps enhance engagement.

Verified & Trusted Services

Authentic guides, stays, and providers build credibility.

Safe & Convenient Travel

Real-time transport and location info improves safety.
